

ERRATA

Women’s Contraceptive Profiles throughout the Life Course in Burundi and Nepal

DHS Analytical Studies No. 72

ICF
Rockville, Maryland USA

Date of correction	Correction
12/9/19	Page 51, Figure 27 The weighted percentage of the Family Builder profile has changed. It is 20%.
	Page 51, first paragraph, last sentence Change “15%” to “20%”. The sentence now reads: “In contrast to the two most common profiles, the representative sequence describing the third largest group (20%), Family Builder, shows contraceptive non-use followed by two distinct periods of a pregnancy state.”
	Page 56, Figure 32 The weighted percentage of the Family Builder profile has changed. It is 20%.
	Page 57, first paragraph, first sentence Change “15.3%” to “19.8%”. The sentence now reads: “Family Builders, with a total of 2,016 women (19.8%), spend an average of 12 months in the pregnancy, birth, and termination state, as shown in Figure 33.”
